TOWER RESOURCES LTD.
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED APRIL 30, 2018

Description of Management Discussion and Analysis

The purpose of this Management Discussion and Analysis (“MD&A”) is to explain management’s point of view regarding the past performance and future outlook of Tower Resources Ltd. (the “Company” or “Tower”). The following Management’s Discussion & Analysis (“MD&A”) provides a review of activities, results of operations and the financial condition of the Company for the six months ended April 30, 2018. This MD&A should be read in conjunction with the Company’s condensed interim financial statements and related notes for the six months ended April 30, 2018 (“Financial Statements”) and the audited financial statements and related notes thereto for the year ended October 31, 2017. The following discussion is dated and current as of June 26, 2018. This MD&A contains forward-looking information and statements which are based on the conclusions of management. The forward-looking information and statements are only made as of the date of this MD&A.

All financial information in this MD&A has been prepared in accordance with International Financial Reporting Standards (“IFRS”) and all dollar amounts are expressed in Canadian dollars unless otherwise indicated.

The Company’s certifying officers, based on their knowledge, having exercised reasonable diligence, are responsible to ensure that these filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by these filings, and these financial statements together with the other financial information included in these filings. The Board of Directors approves the Financial Statements and MD&A and ensures that management has discharged its financial responsibilities. The Board’s review is accomplished principally through the Audit Committee, which meets periodically to review all financial reports, prior to filing.

Additional information on the Company is available on SEDAR and at the Company’s website, <http://www.towerresources.ca/>.

Forward Looking Statements

Certain disclosures contained in this MD&A may constitute forward-looking information. This is information regarding possible events, conditions or results of operations of the Company that is based upon assumptions about future economic conditions and courses of action which is inherently uncertain. All information other than statements of historical fact may be forward-looking information.

Forward-looking information is subject to a variety of risks and uncertainties which could cause actual events or results to differ from those reflected in the forward-looking statements, including, without limitation, risks and uncertainties relating to the interpretation of drill results and the estimation of mineral resources, the geology, grade and continuity of mineral deposits and the possibility that future exploration and development results will not be consistent with the Company’s expectations. Some other risks and factors which could cause results to differ materially from those expressed in the forward-looking information contained in this MD&A are described under the heading “Risks and Uncertainties”.

Readers are cautioned that any such listings of risks are not, and in fact cannot be, complete. Although the Company has attempted to identify important factors that could cause actual events and results to differ materially from those described in the forward-looking information, there may be other factors that cause events or results to differ from those intended, anticipated or estimated. The Company believes the expectations reflected in the forward-looking information are reasonable, but no assurance can be given that these expectations will prove to be correct and readers are cautioned not to place undue reliance on forward-looking information contained in this MD&A.

TOWER RESOURCES LTD.

FOR THE SIX MONTHS ENDED APRIL 30, 2018

Forward Looking Statements (continued)

The forward-looking information contained in this MD&A is provided as of the date hereof and the Company undertakes no obligation to update publicly or revise any forward-looking information, whether as a result of new information, future events or otherwise, except as otherwise required by law. All of the forward-looking information contained in this MD&A is expressly qualified by this cautionary statement.

Description of Business and Discussion of Operations

The Company is incorporated under the Business Corporations Act (BC) and is listed on the TSX Venture Exchange (“TSX-V”). The principal business of the Company is the acquisition and exploration of mineral exploration and evaluation assets in the Province of British Columbia, Canada.

The Company is a Canadian based mineral exploration company focused on the discovery and advancement of economic mineral projects in the Americas. The Company’s key exploration assets are located in British Columbia, Canada. They include the Rabbit North copper-gold porphyry project located between the New Afton and Highland Valley Copper mines, the Nechako gold project near New Gold’s Blackwater project, the Belle copper-gold porphyry project in the Toodoggone district and the More Creek and Voigtberg gold projects in the Golden Triangle area.

The Company is currently focused on the multidisciplinary program at the Rabbit North copper-gold property and exploration of the Nechako Gold and More Creek Gold properties. During the six months ended April 30, 2018, the Company entered into an option agreement to acquire the Voigtberg gold-copper property.

Overall performance

Operating expenses for the six months ended April 30, 2018 were \$422,150 versus \$346,506 in the comparative period ended April 30, 2017. The increase in expenses in the current period was primarily attributable to consulting fees and wages that were not incurred in the prior period, and higher legal and office and miscellaneous (further discussed in the “Results of Operations” section). The current period loss and comprehensive loss includes rehabilitation obligations costs of \$1,650 (2017 - \$nil).

The Company had a net decrease in cash during the six months ended April 30, 2018 of \$745,022 versus a net increase of \$2,737,699 in the comparative period. The decrease in the current period is primarily attributable to exploration and evaluation assets expenditures of \$419,477 compared to \$702,820 in the comparative period, which was offset by raising net funds through share issuances of \$3,164,768. Refer to the “Summary of Exploration Activities” for further discussion of the expenditures and properties.

MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED APRIL 30, 2018

Description of Business and Discussion of Operations (continued)

Corporate activities

In December 2017, the Company entered into an option agreement with Kaminak Gold Corporation, a wholly-owned subsidiary of Goldcorp Inc. (“Goldcorp”), to acquire the Voigtberg gold-copper property, comprised of certain mineral claims located in the Golden Triangle region of northwestern British Columbia. Under the terms of the option agreement, the Company may acquire a 100% interest in the property by issuing 3,000,000 units and incurring aggregate exploration expenditures of \$1,925,000 over a three year period. Each unit is comprised of one common share and one-half share purchase warrant which will entitle the holder of each full warrant to acquire an additional common share for a period of 60 months from their date of issuance. The initial grant of warrants will have an exercise price of \$0.22 per share and all subsequent grants will have an exercise price of 150% of the market price (as defined in the policies of the TSX-V) determined as of the trading date before the date of issuance per share.

In December 2017, the Company entered into an investor rights agreement with Goldcorp (the “Investor Rights Agreement”), whereby Goldcorp will have a right to participate in future equity financings of the Company, to maintain its then current interest, and to increase its shareholdings up to 9.9% of the Company’s outstanding shares. The Company will also provide Goldcorp with periodic exploration updates on all the Company’s properties.

In December 2017, the Company entered into an agreement with Fort Capital Partners for a \$54,000 cash fee and an additional 6% finder’s fee for its role as financial adviser in connection with the Option Agreement and the Investor Rights Agreement transactions and other capital markets advice.

In January 2018, the Company issued 500,000 units pursuant to the Voigtberg property agreement. Each unit is comprised of one common share and one-half share purchase warrant which will entitle the holder of each full warrant to acquire an additional common share of the Company price of \$0.22 per share for a period of 60 months. The common shares were valued at \$70,000 and the warrants were valued at \$32,723.

In January 2018, Richard Wyman was appointed as non-executive chairman of the Board of Directors of the Company.

In March 2018, Garrett Macdonald was appointed to the Board of Directors and Lesia Burianyak was appointed as interim CFO of the Company.

In April 2018, Garrett Macdonald was appointed as CEO of the Company and Darrell Hyde joined the Company as Exploration Manager.

In May 2018, Nicholas Nikolakakis and James Clark were appointed to the Board of Directors, Gerald Shields was appointed as Chairman of the Board of Directors, and Mark N.J. Ashcroft as Technical Advisor.

In May 2018, the Company granted 3,500,000 stock options, 2,700,000 of which were granted to certain directors and officers of the Company, and the remaining to certain consultants, advisors, and employees. Each of the stock options is exercisable for a five year term expiring on May 2, 2023 at a price of \$0.125 per common share. The options are subject to vesting provisions, with one-third vesting on the date of grant, an additional one-third on the first anniversary of the date of grant and the remaining one-third on the second anniversary thereof.

In May 2018, the Company issued 200,000 common shares for proceeds of \$10,500 from the exercise of 200,000 stock options.

TOWER RESOURCES LTD.
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED APRIL 30, 2018

Description of Business and Discussion of Operations (continued)

Corporate activities (continued)

In June 2018, the Company had 450,000 stock options forfeit unexercised.

Summary of Exploration Activities

During the six months ended April 30, 2018, the Company incurred \$560,270 in exploration and evaluation asset expenditures.

The following is a breakdown of the components of the Company's exploration and evaluation assets, on a property by property basis, for the six months ended April 30, 2018:

	JD	Rabbit North	Nechako Gold	More Creek	Voigtberg	Total
	\$	\$	\$		\$	\$
Balance, October 31, 2017	1	2,435,670	206,065	111,333	-	2,753,069
Acquisition costs	-	-	-	-	156,723	156,723
Deferred costs						
Assays	-	1,200	44,252	310	-	45,762
Claim fees	-	-	-	-	15,933	15,933
Drilling	-	1,600	118,888	-	-	120,488
Equipment rental	-	1,670	1,972	-	-	3,642
Field supplies	-	90	10,394	-	-	10,484
Food	-	-	706	-	-	706
Geologist	-	63,383	137,893	-	-	201,276
Site development	-	-	1,908	-	-	1,908
Travel	-	707	1,421	-	-	2,128
Vehicle	-	218	1,002	-	-	1,220
Total costs incurred during the period	-	68,868	318,436	310	172,656	560,270
Balance, April 30, 2018	1	2,504,538	524,501	111,643	172,656	3,313,339

Rabbit North property

The Rabbit North property, acquired in 2013, is comprised of 34 mineral tenures covering 16,400 hectares of which 2,850 hectares are claims under option from private individuals and the remainder were staked by the Company. The Company can earn a 100% interest in the optioned portion by making cash payments of \$170,000 and issuing 1,100,000 common shares over a 4-year period and funding aggregate exploration expenditures of \$2,150,000 over a 5-year period. The vendors also hold a 3% NSR, of which 2% can be purchased by the Company for \$3,500,000. Sandstorm Gold Ltd. holds another 2% NSR, of which 1% can be purchased by the Company for \$500,000. Sandstorm also has the right to exercise 1% of the Company's 2% buyback option on the vendors' NSR.

TOWER RESOURCES LTD.
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED APRIL 30, 2018

Rabbit North property (continued)

The property is located in the Kamloops mining district in south-central B.C., between the New Afton underground Cu-Au mine and the Highland Valley open pit Cu mine. It is centered on the alkalic Durand Stock which measures 2 x 3 km and is compositionally similar to and of the same age as (Late Triassic to early Jurassic) the intrusion that hosts the New Afton deposit. Previous exploration within the stock identified several zones of Cu-Au mineralization that appear to be of limited size and grade but drilling by the Company in 2017 on a magnetic anomaly – the Western Magnetite Zone – encountered stronger and more continuous mineralization in the volcanic rocks along the western margin of the stock, including 247 metres of 0.51% Cu and 0.34 g/t Au in hole RN17-05.

Q2 Activities

Work on Rabbit North included planning for the 2018 field season, which includes further re-logging of drill core from the Western Magnetite Zone, remapping of other key areas on the property and expanding ground geophysical coverage, followed by diamond drilling of selected targets in H2.

More Creek property

The More Creek property is located in the Golden Triangle mineral district in northwestern B.C. It was acquired by staking in 2016, covers 6,430 hectares and is centered on a mountain known as Lawrence Peak. Sandstorm holds a 2% NSR on the property, of which the company can buy back 1% for \$500,000.

Previous work on the property focused on the Sinter Zone, an area of epithermal alteration that is exposed on a high ridge and hosted by Triassic volcanic rocks. Limited heavy mineral stream sediment sampling by the Company in 2016 identified anomalous concentrations of gold grains in a creek draining a previously unexplored area upstream from the Sinter Zone. Mapping, prospecting and silt, soil and rock sampling were performed along the creek valley in the 2017 field season but no additional heavy mineral sampling was conducted.

Q2 Activities

No significant work was completed on the More Creek property in Q2.

Nechako Gold property

The Nechako Gold property is located on the Nechako Plateau in central B.C., 30 km northeast of the 8 million ounce Blackwater Au deposit. It consists of two claim blocks – Chutanli and Porphyry – that were acquired by the Company in 2016 under separate option agreements and together cover 2975 hectares. The Company is acquiring a 100% interest in each property over a 2-year period by making a series of cash payments, issuing tranches of shares and fulfilling exploration expenditures of \$225,000 on the Chutanli block and \$250,000 on the Porphyry block. The vendors hold a 1.5% NSR on their respective properties, each of which the Company can buy back in full for \$1,000,000 Sandstorm also holds a 2% NSR on the combined property, of which the Company can buy back 1% for \$500,000.

The Nechako Gold property lies mainly in a valley that is infilled by thick glacial sediments comprised of till eroded from the underlying bedrock and sand and gravel transported by meltwater from more distal sources. The bedrock geology is essentially unknown as no rock outcrops are present in the valley and only a few holes have previously been drilled within it. In 2016, Overburden Drilling Management Limited (ODM) sampled the till at 31 sites where it is not covered by sand or gravel, and in the heavy mineral fraction of the till identified a gold grain anomaly that covers an area of 3 x 5 km and is four times larger than and similar in strength to the known gold grain dispersal train that extends glacially down-ice from the large Blackwater Au deposit.

TOWER RESOURCES LTD.
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED APRIL 30, 2018

Nechako Gold property (continued)

Q2 Activities

To aid in locating the bedrock source of the gold grain anomaly, the company performed an Induced Polarization (IP) geophysical survey over part of the anomaly in June, 2017, and acquired a 5 year drilling permit. In Q1, ODM conducted a 38-hole drilling program using a specialized reverse circulation drill (RC) that was capable of: (a) sampling the till continuously from top to bottom, even in areas where it is covered by thick sand or gravel, to determine the full extent of the gold grain dispersal train both laterally and at depth; and (b) sampling the top few metres of the underlying bedrock to determine the rock formations that are present, map their distribution and assess their gold fertility.

Thirty-eight holes were drilled, revealing that the thickness of the glacial sediments beneath the gold grain dispersal train averages 25 m and ranges up to 60 m. Final analytical results for the heavy mineral concentrates of the till samples are still being received and compiled, with interpretation and reporting planned for Q2. Diamond drilling was completed in Q2 with 4 holes completed and one hole called off prior to reaching target depth due to poor ground conditions. Total diamond drilling completed was 751.02 metres.

Belle Claims (formerly part of JD property)

In March 2017, the Company was served with a legal claim disputing the title of the Company's Belle claims in the Toodoggone gold district of north-central B.C. The Company responded to the notice of claim and believes that the legal action has no merit. The Company commenced arbitration, serving the claimants with a Statement of Defence on September 15, 2017. In May 2018, the Company received the arbitrator's decision. It was determined the Company was wholly successful in its position and that the Belle claims were not subject to the area of interest provision brought by the claimant.

Voigtberg property

The Voigtberg property is located near the heart of the Golden Triangle region of northwestern B.C. The property is comprised of six mineral tenures totaling 3144 hectares. It was optioned in December 2017, from Goldcorp Inc. for a three year term in exchange for Company shares and warrants and a \$1,925,000 work commitment, with Goldcorp retaining a 1% NSR.

The property is considered by the Company to be prospective for Au-Cu mineralization associated with monzonitic dykes of inferred late Triassic to early Jurassic age. A historical drill hole at a showing known as the Gold Zone intersected 51.2 m of 1.03 g/t Au including 18.2 m of 1.87 g/t Au. Of particular interest is the untested Gossan zone, a 600 x 1000 m area of phyllic and advanced argillic alteration south of the Gold Zone.

Q2 Activities

Work on the new Voigtberg property in the period was limited to reviewing historical exploration data. Additionally, the Company paid claim renewal fees. In the 2018 field season, the Company may perform geological mapping, prospecting and rock, soil and silt sampling to identify potential diamond drill targets.

TOWER RESOURCES LTD.
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED APRIL 30, 2018

Other Properties

The Company is continually reviewing data from and conducting technical due diligence investigations on other exploration projects with a view to acquiring additional properties.

The scientific and technical content and interpretations contained in this MD&A have been reviewed, verified and approved by Stuart A. Averill, B.Sc. (Hons.), P.Geo. (APGO-0641, APEGNL-05465), a Director of the Company and Qualified Person as defined by NI 43-101, *Standards of Disclosure for Mineral Projects*.

Exploration and Evaluation Assets - Oil & Gas

Poplar Winstar Strachan

On December 4, 2006, the Company entered into an agreement with Poplar Point Energy Ltd. (“Poplar”), to participate in a Participation Agreement between Poplar and Winstar Resources Ltd. (“Winstar”), dated October 20, 2006, wherein Poplar agreed to participate in the Winstar Strachan 8-10-38-10 W5M well in the West Central area of Alberta. The Company paid \$300,000 of the drilling, completion and tie in costs of the well to earn an equalization interest of 1.2366423%. Winstar sold its interest in the well to Crossbow Energy Partners Ltd, which sold its interest to Vermilion Energy Trust.

During the year ended October 31, 2009, the Company wrote down the value of the property to the estimated recoverable amount of \$1.

Costs Summary for the Oil and Gas Property

	April 30, 2018 and October 31, 2017	
	Acquisition Costs	
Poplar Winstar Strachan	\$	1

Selected Annual Information

The following financial data are derived from the Company’s financial statements for the years ended October 31, 2017, 2016 and 2015:

	2017	2016	2015
	\$	\$	\$
Revenue (interest income)	-	-	1,810
General and administrative expenses	(766,902)	(357,368)	(326,856)
Loss and comprehensive loss	(662,441)	(2,900,243)	(328,966)
Basic and diluted loss per common share	(0.01)	(0.06)	(0.01)
Working capital	2,411,302	751,791	369,025
Exploration and evaluation assets	2,753,069	1,528,189	3,576,413
Total assets	5,383,766	2,767,419	4,056,024
Total liabilities	92,598	437,163	51,959

TOWER RESOURCES LTD.
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED APRIL 30, 2018

Selected Annual Information (continued)

The Company's projects are at the exploration stage and have not generated any revenue. Revenue earned in 2015 and was generated through interest on cash deposits. At April 30, 2018, the Company had not yet achieved profitable operations and has a deficit of \$13,017,802 (October 31, 2017 - \$12,636,568). These losses resulted in a net loss per share for the six months ended April 30, 2018 of \$(0.00) (April 30, 2017 - \$(0.00)).

Summary of Quarterly Results

Quarter ended	Revenue (interest income)	Loss and comprehensive loss	Basic and diluted loss per share	Exploration and evaluation assets expenditures	General and administrative expenses
	\$	\$	\$	\$	\$
April 30, 2018	-	(212,452)	(0.00)	156,450	212,452
January 31, 2018	-	(211,348)	(0.00)	403,820	209,698
October 31, 2017	-	(183,245)	(0.00)	228,829	203,088
July 31, 2017	-	(217,308)	(0.00)	886,927	217,308
April 30, 2017	-	(128,967)	(0.00)	70,328	213,585
January 31, 2017	-	(132,921)	(0.00)	336,309	132,921
October 31, 2016	-	(161,767)	(0.00)	376,125	132,167
July 31, 2016	-	(84,823)	(0.00)	97,035	84,823

Variances quarter over quarter can be explained as follows:

- Given the general weather conditions and exploration season in British Columbia, the Company's exploration and evaluation assets expenditures tend to be greater from May to November than in the rest of the year.

Results of Operations – current quarter

The following discussion should be read in conjunction with the accompanying Financial Statements and related notes. The operating and administrative expenses for the three months ended April 30, 2018 totaled \$212,452 (April 30, 2017 - \$213,585).

The table below explains the significant changes in expenditures for the three months ended April 30, 2018 as compared to the corresponding three months ended April 30, 2017.

Expenses	Increase / Decrease in Expenses	Explanation for Change
Accounting and audit	Increase of \$5,825	Increase includes accounting fees paid to CFO.
Consulting fees	Increase of \$18,000	Increased as the current period had fees for capital market advisory.
Investor relations	Decrease of \$13,000	Decrease as there were no investor relation fees incurred.

TOWER RESOURCES LTD.
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED APRIL 30, 2018

Results of Operations – current quarter (continued)

Legal fees	Increase of \$9,402	Increase due to continued fees incurred for arbitration on the Belle property.
Management fees	Decrease of \$7,500	Decrease as fees were not incurred for the last month of the period. Management fees were paid to CEO, which are now recorded in wages.
Office and miscellaneous	Increase of \$9,787	Increase due to increase in corporate activities, including fees paid for corporate administration. Fees also include work done for a corporate presentation and an update to the corporate website.
Share-based compensation	Decrease of \$51,512	Variation is due to timing of options vesting.
Wages and benefits	Increase of \$28,911	Increase is a result of CEO fees being recorded as wages.

Results of Operations – year-to-date

The following discussion should be read in conjunction with the accompanying Financial Statements and related notes. The operating and administrative expenses for the six months ended April 30, 2018 totaled \$422,150 (April 30, 2017 - \$346,506).

The table below explains the significant changes in expenditures for the six months ended April 30, 2018 as compared to the corresponding six months ended April 30, 2017, not described above.

Expenses	Increase / Decrease in Expenses	Explanation for Change
Legal fees	Increase of \$29,780	Increase also a result of work performed acquiring the Voitgberg property.
Transfer agent and filing fees	Decrease of \$13,095	Decrease due to timing of services being performed.

Liquidity, Financial Position and Capital Resources

The Company has no known mineral resources and is not in commercial production on any of its properties, and accordingly the Company does not generate cash from operations. The Company finances exploration activities by raising capital from equity markets from time to time.

TOWER RESOURCES LTD.
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED APRIL 30, 2018

Liquidity, Financial Position and Capital Resources (continued)

The Company's liquidity and capital resources are as follows:

	April 30, 2018	October 31, 2017	April 30, 2017
	\$	\$	\$
Cash	1,717,478	2,462,500	3,850,820
Receivables	25,741	17,738	29,424
Prepaid expenses	16,869	22,425	9,640
Total current assets	1,760,088	2,502,663	3,889,884
Accounts payables and accrued liabilities	41,618	91,361	129,977
Working capital	1,718,470	2,411,302	3,759,907

As at April 30, 2018, the Company had a cash position of \$1,717,478, consisting mainly of proceeds from the recent financing.

The primary use of cash during the six months ended April 30, 2018 was the funding of operating activities of \$332,545 (April 30, 2017 - \$209,092) and investing activities of \$454,477 (April 30, 2017 - \$706,157), mainly due to exploration and evaluation assets expenditures. The Company received proceeds of \$42,000 from the issuance of shares from exercise of stock options as compared to receiving net funds of \$3,164,768 from the issuance of shares from a financing, exercise of stock options, and exercise of warrants.

The Company currently has no source of operating cash flow, limited financial resources, and has no assurance that additional funding will be available to it for further exploration and development of its properties or to enable it to fulfill its obligations under any applicable agreements. Failure to obtain such additional financing could result in delay or indefinite postponement of further exploration and development of the Company's properties and the possible loss of title to such properties. The ability of the Company to continue as a going concern and realize the carrying value of its resource properties is dependent upon the continued financial support from related parties, the ability of the Company to raise equity financing to continue exploration and development activities or contract out further work with joint venture partners, the discovery of economically recoverable reserves, and upon future profitable operations or proceeds from disposition of resource properties. Management estimates it has sufficient funds to operate for the current fiscal year.

Related Party Transactions

During the six months ended April 30, 2018, the Company engaged in the following transactions with related parties (key management), not disclosed elsewhere in this MD&A:

- a) Management fees, included in wages and benefits, of \$19,231 (2017 - \$nil) were paid to Garrett Macdonald, the President, CEO and director of the Company.
- b) Management fees of \$50,000 (2017 - \$50,000) were paid to a company controlled by Mark Vanry, the former President, former CEO and former director of the Company.
- c) Accounting fees of \$3,548 (2017 - \$nil) were paid to Lesia Buriannyk, the CFO of the Company.
- d) Administrative fees included in office and miscellaneous of \$10,000 (2017 - \$15,000) were paid to a company controlled by Steve Vanry, the former CFO and former director of the Company.
- e) Office and miscellaneous includes rent recovery of \$1,500 (2017 - \$4,500) from Pacific Rim Cobalt Corp. (formerly Rhys Resources Ltd.), a company related by a common former director. As at April 30, 2018, \$nil (October 31, 2017- \$788) was included in receivables for rent recovery owed from this company.

TOWER RESOURCES LTD.
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED APRIL 30, 2018

Related Party Transactions (continued)

- f) Office and miscellaneous includes rent recovery of \$3,169 (2017 - \$4,500) from InZinc Mining Ltd., a company related by a common former officer. As at April 30, 2018, \$nil (October 31, 2017- \$788) was included in receivables for rent recovery owed from this company.

Summary of key management personnel compensation (including officers and directors) for the six months ended April 30, 2018 and 2017:

	2018	2017
	\$	\$
Accounting fees	3,548	-
Management fees	50,000	50,000
Office and miscellaneous	10,000	15,000
Share-based compensation	65,580	82,763
Wages and benefits	19,231	-
	148,359	147,763

Amounts owing to related parties (including key management personnel) included in accounts payable and accrued liabilities total \$2,100 (October 31, 2017 - \$5,861).

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly, including directors (executive and non-executive) of the Company.

Off-Balance Sheet Transactions

The Company does not have any off-balance sheet arrangements as at April 30, 2018 or as of the date of this report.

Risks and Uncertainties

The main risks that can affect the Company include operational risks, changes in commodity and equity prices, and government regulation.

Operational

The Company is focused on mineral exploration of its Rabbit North, More Creek and Nechako Gold properties located in British Columbia. The mineral exploration business is speculative and involves a high degree of risk.

There can be no assurance that the Company's exploration activities will be successful as few properties that are explored are ultimately developed into producing mines. It is impossible to ensure that the current exploration programs being carried out or planned by the Company will result in a profitable commercial mining operation. At present, none of the Company's properties has a known body of commercial ore and any proposed exploration programs are an exploratory search for ore.

TOWER RESOURCES LTD.
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED APRIL 30, 2018

Risks and Uncertainties (continued)

In addition to the risk that no economic body of ore exists on its properties, the Company is subject to an extensive array of other economic, political and technical risks in exploring and developing its exploration and evaluation assets, including, without limitation, volatile stock and currency markets, fluctuations in metals prices, competition, changing government regulations, title issues, undercapitalization, the potential for delays in exploration, the potential for unexpected costs and expenses, accidents, the availability of key personnel and political instability. Since the Company has no revenues, the acquisition and development of its properties depends upon its ability to obtain financing through private placement financings, public financings, the joint venturing of projects or other means. There can be no assurance that the Company will be successful in obtaining the required financings.

Management of industry risk

The Company is engaged primarily in mineral exploration and manages related industry risk issues directly. The Company's mineral exploration activities expose it to potential environmental liability risk. It is management's policy to review environmental compliance and exposure on an ongoing basis. The Company follows industry standards and specific project environmental requirements. The Company is currently in the exploration stage on its property interests and has not determined whether significant site recovery costs will be required. Management is not aware of and does not anticipate any significant environmental remediation costs or liabilities in respect of its current operations.

Commodity and equity prices

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices of gold and other precious and base metals, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company. Fluctuations in pricing may be significant.

Government regulation

The Company's operations may be adversely affected by changes in governmental policies or other economic developments which are not within the control of the Company including a change in taxation policies, economic sanctions, and currency control. The Company is subject to various laws governing exploration, development, production, taxes, labour standards and occupational health, toxic substances, land use, water use, land claims of local people and other matters. No assurance can be given that new rules and regulations will not be enacted or that existing rules and regulations will not be applied in a manner which could increase the cost of operations.

Critical Accounting Estimates

The preparation of financial statements in conformity with IFRS requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the Financial Statements and the reported revenues and expenses during the period.

Although management uses historical experience and its best knowledge of the amount, events or actions to form the basis for judgments and estimates, actual results may differ from these estimates.

TOWER RESOURCES LTD.
MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE SIX MONTHS ENDED APRIL 30, 2018

Critical Accounting Estimates (continued)

Critical judgment exercised relates primarily to the application of the going concern basis of preparation.

The most significant accounts that require estimates as the basis for determining the stated amounts include the recoverability of exploration and evaluation assets, the valuation of share-based compensation and income taxes.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in material adjustments are as follows:

Economic recoverability and probability of future economic benefits of exploration and evaluation assets

Management has determined that exploration, evaluation, and related costs incurred which were capitalized may have future economic benefits and may be economically recoverable. Management uses several criteria in its assessment of economic recoverability and probability of future economic benefits, including geologic and other technical information, a history of conversion of mineral deposits with similar characteristics to its own properties to proven and probable mineral reserves, the quality and capacity of existing infrastructure facilities, evaluation of permitting and environmental issues and local support for the project.

Valuation of share-based compensation

The Company uses the Black-Scholes option pricing model for valuation of share-based compensation. Option pricing models require the input of subjective assumptions including expected price volatility, interest rate, and forfeiture rate. Changes in the input assumptions can materially affect the fair value estimate and the Company's earnings and equity reserves.

Income taxes

In assessing the probability of realizing income tax assets, management makes estimates related to expectation of future taxable income, applicable tax opportunities, expected timing of reversals of existing temporary differences and the likelihood that tax positions taken will be sustained upon examination by applicable tax authorities. In making its assessments, management gives additional weight to positive and negative evidence that can be objectively verified.

New or Revised Accounting Standards Not Yet Adopted

The following new standards, amendments to standards and interpretations applicable to the Company are not yet effective and have not been applied in preparing these financial statements. The Company does not expect there to be any changes other than disclosure as a result of the new or revised standards.

- a. IFRS 2 – Share Based Payments: The amendments eliminate the diversity in practice in the classification and measurement of particular share-based payment transactions which are narrow in scope and address specific areas of classification and measurement. It is effective for annual periods beginning on or after January 1, 2018, with early adoption permitted provided it is disclosed.
- b. IFRS 9 – Financial Instruments: Classification and Measurement applies to classification and measurement of financial assets and liabilities as defined in IAS 39. It is effective for annual periods beginning on or after January 1, 2018 with early adoption permitted.
- c. IFRS 15 – Revenue from Contracts with Customers: The amendments do not change the underlying principles of the standard, just clarify and offer some additional transition relief. The standard is effective for annual periods beginning on or after January 1, 2018.

FOR THE SIX MONTHS ENDED APRIL 30, 2018

New or Revised Accounting Standards Not Yet Adopted (continued)

- d. IFRS 16 – Leases: This standard establishes principles for the recognition, measurement, presentation and disclosure of leases, with the objective of ensuring that lessees and lessors provide relevant information that faithfully represents those transactions. The standard is effective for annual periods beginning on or after January 1, 2019.

Financial Instruments and Management of Financial Risk

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The Company's financial instruments consist of cash, receivables, reclamation bonds, and accounts payable and accrued liabilities. The fair value of these financial instruments, other than cash, approximates their carrying values. Cash is measured at fair value using level 1 inputs.

The Company is exposed to a variety of financial risks by virtue of its activities including credit, liquidity, interest rate, foreign currency and price risk.

Credit risk

The Company is exposed to industry credit risks arising from its cash holdings and receivables. The Company manages credit risk by placing cash with major Canadian financial institutions. The Company's receivables primarily consist of sales tax receivable due from the Federal Government of Canada. Management believes that credit risk related to these amounts is nominal.

Liquidity risk

Liquidity risk is the risk that the Company will not have sufficient funds to meet its financial obligations when they are due. To manage liquidity risk, the Company reviews additional sources of capital and financing to continue its operations and discharge its commitments.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. As of April 30, 2018, the Company held demand deposits with a face value of \$1,045,000 (October 31, 2017 - \$10,000). A change in interest rates of 1% would result in a nominal difference in interest income for the six months ended April 30, 2018.

Foreign currency risk

The Company is not significantly exposed to foreign currency risk on fluctuations related to items that are denominated in a foreign currency.

FOR THE SIX MONTHS ENDED APRIL 30, 2018

Financial Instruments and Management of Financial Risk (continued)

Price risk

The Company has limited exposure to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities.

Other risks

The Company will need additional funding to complete its short and long term objectives. The ability of the Company to raise such financing in the future will depend on the prevailing market conditions, as well as the business performance of the Company. Current global financial conditions have been subject to increased volatility as a result of which access to public financing has been negatively impacted. There can be no assurances that the Company will be successful in its efforts to raise additional financing on terms satisfactory to the Company. The market price of the Company's shares at any given point in time may not accurately reflect value. If adequate funds are not available or not available on acceptable terms, the Company may not be able to take advantage of opportunities, to develop new projects or to otherwise respond to competitive pressures.

The Company is dependent upon the services of key executives, including the Chief Executive Officer. Certain directors and officers of the Company also serve as directors and/or officers of other companies involved in mineral exploration and development and, consequently, there exists the possibility for such directors and officers to be in a position of conflict.

Disclosure of Data for Outstanding Common Shares, Options and Warrants

Authorized and issued capital stock as at the date of this report:

Authorized – Unlimited common shares without par value

Issued and Outstanding: 91,117,435 common shares

(i) Warrants
